

## Lady Lulu's Dancing Damsels

Please read the instructions before starting construction.

When opening the kit, you will notice the smell of burned wood. This is because the parts are laser-cut, which literally means a very tight light beam burns through the material. You may also notice some soot at the cut edges. The amount of soot depends on the material used. You can considerably reduce it by gently wiping at least the bigger and easy to reach edges with a soft cloth or household tissue.

PVA or equivalent glue will be required to glue parts together. Give glue enough time to dry. Wipe away any excess glue immediately using a fine cloth or the tip of a toothpick. A sharp hobby knife is needed to remove parts from the sheet. Be careful and always cut away from your body. Fine sandpaper may be useful to clean these areas or any tight-fitting joints. Clamps, pegs and elastic bands may help during the construction of the kit. Make sure that the parts are aligned correctly before applying any of these tools.

### General pre-assembly preparations

You will achieve the best results in finishing this kit when you follow the steps listed below. Always double check with the provided pictures before gluing parts together and moving on to the next step.

Please keep in mind that - in general - engraved sides of parts are considered "outside"; not engraved sides are "inside" or positioned less visible once the kit is finished.

### Assembly

#### Building

#### General preparation:

##### 1. Moveable door

Insert the lower and upper door pins in frame holes. Glue the side frame pieces in place! Tweezers and the Spot-On PVA Glue Applicator may come in handy.

2.

3.

Glue stage supports together using the tent floor as a jig, but **DO NOT** glue on tent floor yet!  
Let dry thoroughly!

4.

Flip assembled stage support upside down and glue base part in place. When dry, glue onto tent floor.

5. Let dry thoroughly!

# Wild West

6.

7. Insert preassembled doors from the INSIDE!

**Note:** The Standard Edition of Lady Lulu's Dancing Damsels does **NOT** have cut-outs on the stage floor!

# Wild West

8. Let dry thoroughly!

9.

10.

# Wild West

11.

12.

13.

14.

Assemble the smaller sign (Saloon) in the same manner.

# Wild West

## Wagon

**Note:** Wagon is **NOT** included in the Standard Edition of Lady Lulu's Dancing Damsels.

1.

Glue two rings onto the protruding pin (Sorry, I forgot to take picture)

**Note:** Newer kits will only have one ring!

2.

# Wild West

3.

4.

**Tip:** Tape the roof parts from the inside to keep it removable.

5.

If you ever experience problems or difficulties in finishing this kit don't become desperate! Just send me an email at [thingsfromthebasement@gmail.com](mailto:thingsfromthebasement@gmail.com) and I will help you get it done. Designing the kit and then providing an instruction for everyone to understand is probably the hardest part of the whole project. I am ready for every kind of feedback to improve the kit and instructions. I just need to know!
